

Dear Parents,

Pineywoods Community Academy has been made aware of threatening statements allegedly made by students. PCA Administration immediately investigated each situation, determined that the threats were not credible, and took appropriate disciplinary measures in accordance with PCA policy. Home visits are being conducted by PCA administration in each case.

A number of parents have contacted PCA and expressed concerns based on information heard within the community. Please know that no weapons have been present on campus and we feel there is no imminent threat to our students or staff.

In the aftermath of recent events, we understand that school safety is at the forefront of everyone's mind. Parents need to have conversations with their children about the seriousness of making threats of violence verbally or on social media. Even if made in a joking manner, these statements will not be taken lightly.

As always, PCA wants to thank parents and the community for their support. If any student or parent becomes aware of any potential threat to our school, immediately notify our offices. Thank you again for entrusting us with the education of your child.
